CAPONIO W A

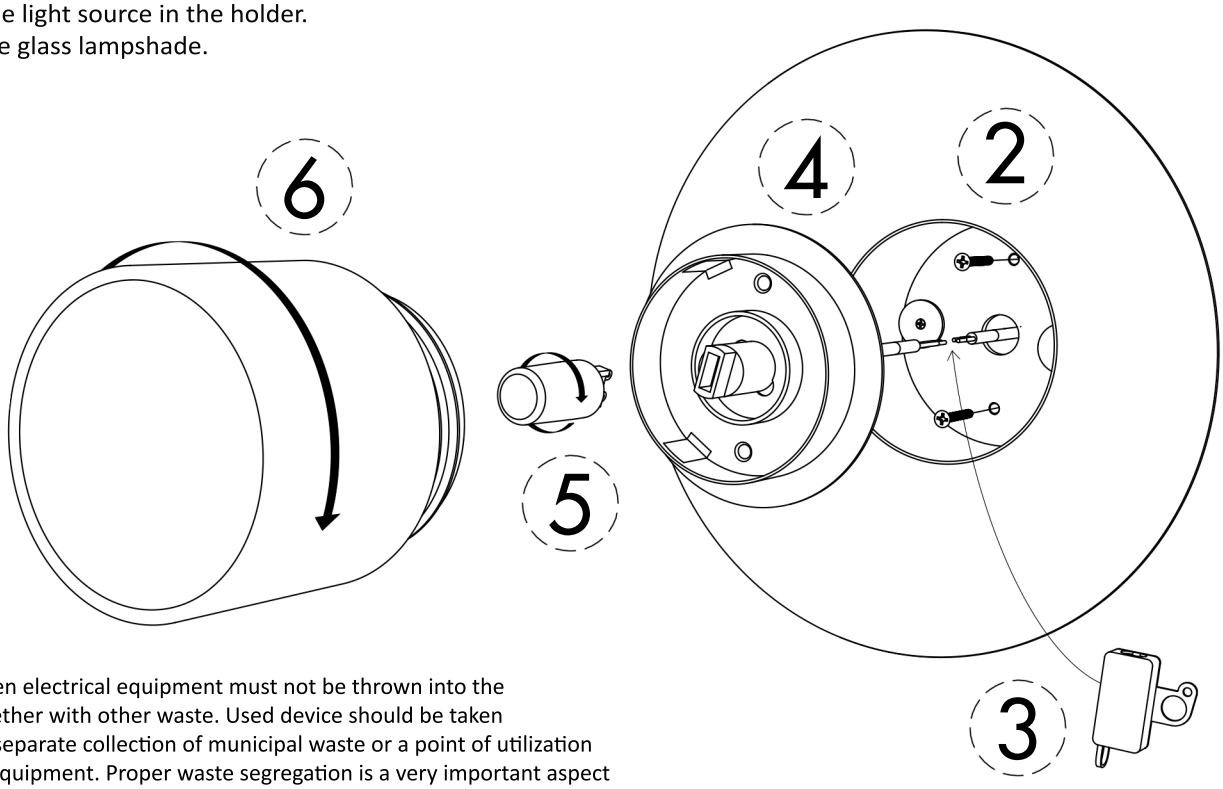

230V MAX. 1 x 12W G9

Assembly instructions

WARNING: Assembly lamp with the power off.

1. To remove the front bezel with the fixture, push the edge of the metal disc. After swinging the piece forward, remove the part from the inside of the lampshade.
2. Put the power cord through the central hole in the lampshade. Fasten the lamp shade to the wall with screws and rawlplugs.
3. Connect the power wires to the connection block, tighten the terminal screws, close the cube.
4. Attach the bezel with the fixture to the round magnets located in the lamp housing.
5. Mount the light source in the holder.
6. Attach the glass lampshade.

Used or broken electrical equipment must not be thrown into the trash bin together with other waste. Used device should be taken to a point of separate collection of municipal waste or a point of utilization of electrical equipment. Proper waste segregation is a very important aspect of environmental protection and must be strictly observed.

WARNING: The installation should be performed by a qualified electrician.
