SENKEI A/B/C

230V MAX. 59W

Assembly instructions

WARNING: Assembly lamp with the power off.

1. Unscrew the caps on the lamp mount. Pass the ball-ended cables through the hole and screw the component back together.
2. Loosen the screws on both sides of the canopy. Attach the metal mounting arm to the ceiling.
3. Install the wire rope clip on the mounting surface.
4. Insert the ends of the steel cables into the cable brake.
5. Insert the brake into the foot of the lock, let the end of the cable out through the side hole in the foot, and cut off the excess cable with pliers. Tighten the brake lock to prevent the cable from accidentally slipping out of the brake.
6. Connect the power supply to the connection block, then close the block.
7. Attach the canopy to the mounting arm, then tighten the screws on both sides of the canopy.
8. Level the lamp by maneuvering the length of the steel cables.

Used or broken electrical equipment must not be thrown into the trash bin together with other waste. Used device should be taken to a point of separate collection of municipal waste or a point of utilization of electrical equipment. Proper waste segregation is a very important aspect of environmental protection and must be strictly observed.

WARNING: The installation should be performed by a qualified electrician.
