Pantaya Sconce
Installation Guide

PAGE 1/2

Pablo | HAWORTH

CAUTION - We recommend this fixture be installed by a licensed Electrician.

Before assembling and installing this product, carefully read the following:

- When installing multiple lamps; these fixtures must be wired in parallel in order to achieve the best possible light quality from each lamp. Wiring in series will result in the progressive loss of performance as the lamps move further away from the building power.
- Switch off power to the junction box before installing the lamp.
- Move light switch into the OFF position.
- When mounting to the ceiling, always use appropriate anchoring hardware.
- We recommend reading the guide before you begin installation.
- Installation Guides can be downloaded from Pablodesigns.com in the case this document is lost or damaged.
- Do not dissassemble, modify or try to repair this fixture! In order to recieve technical assistance contact Pablo Designs. Any modification to the fixture will nulify the manufacturer's warranty.

(IF APPLICABLE) IMPORTANT INFORMATION ABOUT GLASS MATERIALS/FINISHES:

- Glass is a material which is fragile and can be easily damaged when mishandled.
- One of the main characteristics of Opal glass is that it is hand blown. Small imperfections like; air bubbles, thickness variations, or scratches can occur during the production process. These imperfections underline the craftsmanship, the exclusivity and authenticity of hand blown Opal glass.

CLEANING INSTRUCTIONS:

- Use only a soft cloth to clean this fixutre, dampened with water or mild cleanser if required, DO NOT use alcohol, solvents, or other abraisive cleaners, as this could damage the lamp finish.

TECHNICAL SPECIFICATIONS

Voltage: 120-277V 50/60Hz
Power Consumption: 60W
Color Temperature: 2700K
Luminosity: 1750 Lumens
Luminaire efficacy: 28 Lumens/Watt
Color Rendition Index: 90 + CRI

Installation Guide

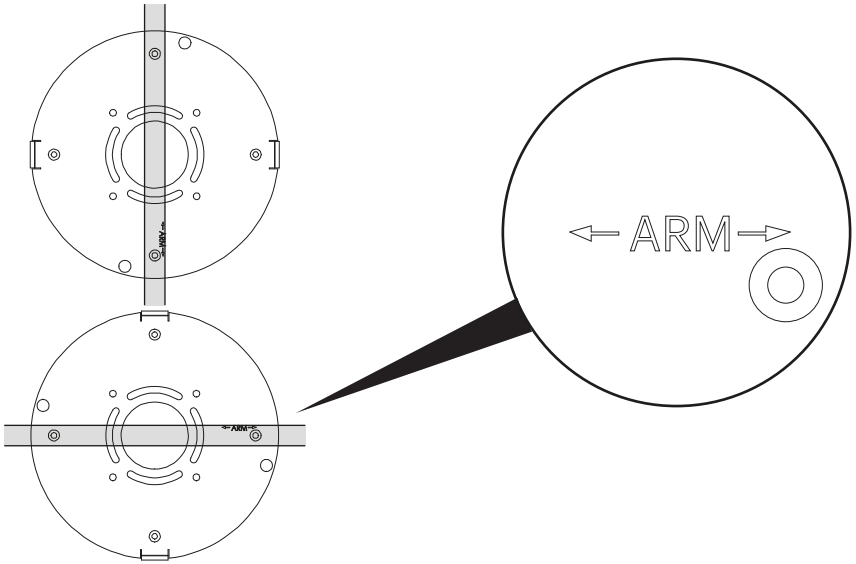

Pablo | HAWORTH

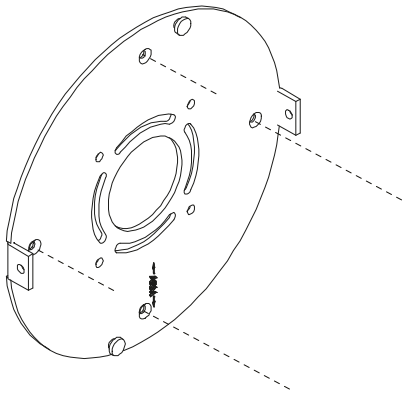

1 Remove from packaging: separate MOUNT BRACKET from lamp assembly by removing (2) set screws.

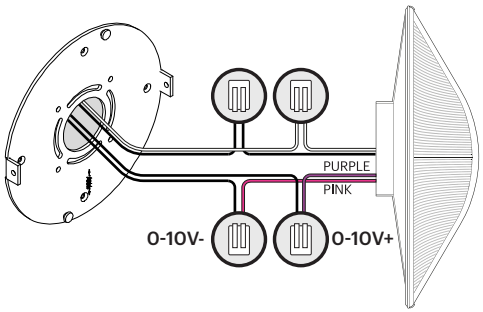

2 Determine desired mounting orientation. The mounting bracket is marked to show the direction of the lamp's central arm.

3 Secure Mount Bracket to wall using appropriate anchoring hardware. Level as needed.

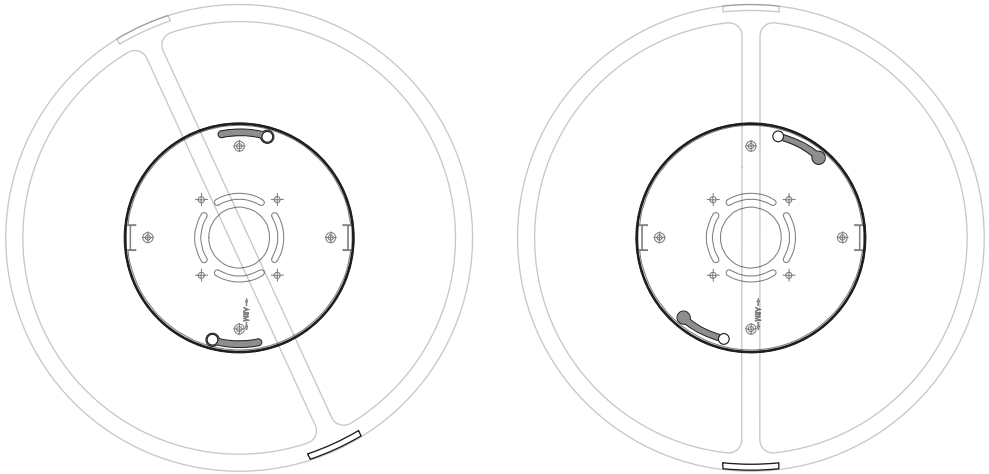

4 Wire the lamp to building power (Black to Black/White to White). **[NOTE: PINK AND PURPLE WIRES ARE FOR 0-10V INSTALLATIONS ONLY - PLEASE CAP THESE WIRES AND TUCK THEM BACK INTO THE CANOPY].**

WIRING DIAGRAM

5 Align the pins on the Mount Bracket to the Keyholes on the Canopy. Push the lamp onto the bracket and rotate clockwise until the lamp is secure.

6 Secure the lamp assembly to the mount Bracket using (2) Set Screws. This completes the installation.
